Quick Start Guide
Cradlepoint Access Point (AP)

Contents:

Cradlepoint AP   PoE Injector w/   (2) Ethernet Cables
AC Power Supply

Instructions:

1. Connect one of the supplied Ethernet cables to one of the LAN ports of the Cradlepoint router and the other end to the "LAN" port on the PoE Injector.

2. Connect the second supplied Ethernet cable to the "POE" port on the PoE Injector and the other end to the "LAN PoE" port on the Cradlepoint AP.

3. Connect the AC power supply to the '12VDC' power port on the PoE Injector. Then wait for the unit to boot up (~5 minutes).

4. **Connect Via Wireless (WiFi)**
   - Using your device's wireless network connection program, find and connect to the network name (SSID) listed on the label on top of the Cradlepoint.
   - Enter in the password *(located on the same label as the SSID)*.
   - Once connected you should be able to surf the internet *(there is no splash page)*.
